

AYUSH MAHALE

Java Backend Developer

📍 Hyderabad, India 📞 +91 9505453869 ✉ ayushmahalegm@gmail.com 🌐 ayushmahale2709 📄 ayushmahale2709

Summary

Computer Science Engineering graduate (CGPA: **9.06/10**) with knowledge of **Core Java**, **Spring Boot**, **SQL**, **JDBC**, and **REST APIs**. Strong understanding of **Object-Oriented Programming (OOP)** and **Backend Development** fundamentals, with a keen interest in building Java applications.

Skills

- **Languages:** Java, SQL, C++
- **Backend:** Spring Boot, Spring MVC, REST APIs, JDBC, JSON, HTTP
- **Core Java:** Java 8, OOP, Collections Framework, Exception Handling, Multithreading, Streams API, Lambda Expressions, File Handling, Serialization
- **Database:** MySQL, MongoDB
- **Tools:** Git, GitHub, Maven, Postman

Experience

AI Prompt Engineer Intern — E2L Technologies Pvt. Ltd.

Jan 2026 – Apr 2026

Hyderabad, India

- Collaborated with cross-functional teams to design AI-driven workflows, technical documentation, and process improvements.
- Supported automation initiatives through structured prompt engineering, analytical problem-solving, and workflow optimization.

Projects

Bank System CLI | Java, OOP, Collections Framework, JDBC, Serialization

[GitHub](#)

- Built a modular banking application in Core Java using OOP and Collections Framework with robust input validation for account and transaction management.
- Implemented persistent storage via Java Serialization and file handling, following clean and maintainable coding practices.

Secure Cloud Log Drive | Python, Streamlit, Firebase, SQLite, SHA-256

[GitHub](#)

- Developed secure backend modules for authentication, encrypted log storage, and keyword-based search using Python, Firebase, and SQLite.
- Implemented SHA-256 hash chaining and Isolation Forest-based anomaly detection to strengthen data integrity and application security.

Student Grade Management System | Java, HashMap, OOP, Serialization

[GitHub](#)

- Developed a menu-driven Java application to manage student records and automate grade calculation using HashMap and OOP principles.
- Designed modular backend logic with persistent storage using Java Serialization and file handling.

Certifications

- SQL (Advanced) — HackerRank
- Introduction to Software, Programming, and Databases — IBM
- Python Programming Essentials — Rice University

Education

Malla Reddy University

2022 – 2026

B.Tech, Computer Science Engineering (Cyber Security) — CGPA: 9.06/10
